

Welcome!

We are excited that you’ve decided to take the CRP exam this year. To help you prepare for the test, we’ve put together an exam preparation study Q&A group. Please review the study group schedule and ensure that all your materials have been received before the first scheduled session.

Introduction to CRP Training – Weekly Study Q&A Group

Earning the CRP designation is a strategic career move. This certification will enhance your own business development; elevate your standing inside your company and with current and new clients and colleagues. You will be able to increase your marketability to potential employers, strategically place your career on an executive path; and showcase your expertise to the entire mobility industry. There is a lot of material that the ERC wants you to know, and we’ll spend the next 10 weeks reviewing the important information.

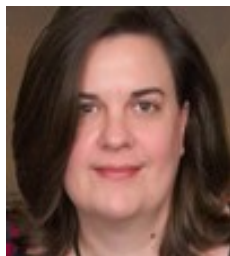

Agenda

The agenda below has been compiled in order to explore a topic each week. Our weekly MS Teams session will consist of a subject matter expert to provide an overview and answer any questions. It is important that you **come prepared with the material already read, highlighted, and prepared to ask clarifying questions.** All sessions will occur via **MS Teams at 10:00-10:30 am Eastern.**
